

Community Reinvestment Act Public Notice

Under the federal Community Reinvestment Act (CRA), the Federal Deposit Insurance Corporation (FDIC) evaluates our record of helping to meet the credit needs of this community consistent with safe and sound operations. The FDIC also takes this record into account when deciding on certain applications submitted by us.

Your involvement is encouraged.

You are entitled to certain information about our operations and our performance under CRA, including, for example, information about our branches, such as their location and services provided at them; the public section of our most recent CRA Performance Evaluation, prepared by the FDIC, and comments received from the public relating to our performance in helping to meet community credit needs, as well as our responses to those comments. You may review this information today.

At least 30 days before the beginning of each quarter, the FDIC publishes a nationwide list of the banks that are scheduled for CRA examination in that quarter. This list is available from the Regional Director, Division of Compliance and Consumer Affairs, FDIC. 1100 Walnut Street, Suite 2100, Kansas City, MO 64106. You may send written comment about our performance in helping to meet community credit needs to Farmers & Merchants State Bank, PO Box 10, Plankinton, SD 57368 and the FDIC Regional Director. You may also submit comments electronically through the FDIC's web site @

www.fdic.gov/regulations/cra

Your letter, together with any responses by us, will be considered by the FDIC in evaluating our CRA performance and may be made public.

You may ask to look at any comments received by the FDIC Regional Director. You may also request from the FDIC Regional Director an announcement of our applications covered by the CRA files with the FDIC.

We are a subsidiary of the Page Holding Company, a bank holding company. You may request from the Federal Reserve Bank of Minneapolis at PO Box 291, Minneapolis, MN 55480 an announcement of applications covered by the CRA filed by bank holding companies.

Kansas City, Missouri 64106

This document is an evaluation of this institution's record of meeting the credit needs of its entire community, including low- and moderate-income neighborhoods, consistent with safe and sound operation of the institution. This evaluation is not, nor should it be construed as, an assessment of the financial condition of this institution. The rating assigned to this institution does not represent an analysis, conclusion, or opinion of the federal financial supervisory agency concerning the safety and soundness of this financial institution.

INSTITUTION RATING

INSTITUTION'S CRA RATING: This institution is rated **Satisfactory**. An institution in this group has a satisfactory record of helping to meet the credit needs of its assessment area, including low- and moderate-income neighborhoods, in a manner consistent with its resources and capabilities.

Farmers and Merchants State Bank's satisfactory Community Reinvestment Act (CRA) performance under the Lending Test supports the overall rating. Examiners did not identify any evidence of discriminatory or other illegal credit practices during the evaluation. The following points summarize the bank's performance.

- The average net loan-to-deposit ratio is more than reasonable given the institution's size, financial condition, and assessment area credit needs.
- The institution made a majority of its small farm and small business loans in its assessment area.
- A geographic distribution analysis was not conducted as the bank's assessment area is comprised entirely of middle-income geographies. Therefore, an analysis would not result in meaningful conclusions.
- The distribution of borrowers reflects reasonable penetration of loans among farms and businesses of different sizes.
- The institution did not receive any CRA-related complaints since the previous evaluation; therefore, this factor did not affect the rating.

SCOPE OF EVALUATION

General Information

This evaluation covers the period from the prior evaluation dated September 16, 2013, to the current evaluation dated October 7, 2019. Interagency Small Institution Examination Procedures were used to evaluate Farmers and Merchants State Bank’s CRA performance.

These procedures considered the institution’s performance according to the following Lending Test criteria:

- Loan-to-deposit ratio
- Assessment area concentration
- Geographic distribution
- Borrower profile
- Response to CRA-related complaints

Loan Products Reviewed

Examiners determined that the bank’s major product line is agricultural loans, followed by commercial loans. This conclusion considered the institution’s business strategy and the number and dollar volume of loans originated during the evaluation period. Furthermore, this evaluation does not include any lending activity performed by affiliates.

Bank management indicated that the lending focus and product mix remained consistent throughout the evaluation period. Therefore, examiners analyzed all small farm and small business loans originated, renewed, or extended, including those paid off, between January 1, 2018, and December 31, 2018. During the review period, the bank originated, renewed, or extended 463 small farm loans totaling \$46,025,000 and 130 small business loans totaling \$7,597,000. These loans were considered representative of the bank’s lending during the entire evaluation period. Home mortgage loans were not evaluated as they are not a lending focus for the institution and only 36 home mortgage loans (3.4 percent by number and 2.6 percent by dollar volume) were originated, renewed, or extended in 2018.

For the Lending Test, the entire universe of small farm and small business loans was used to evaluate the Assessment Area Concentration criterion. Additionally, a sample of small farm and small business loans originated, renewed, or extended within the assessment area was reviewed to evaluate the Borrower Profile criterion. The analysis under the Borrower Profile criterion compares the distribution of farms and businesses by gross annual revenue level. The following table illustrates the loan products reviewed under this criterion.

Loan Products Reviewed for Borrower Profile				
Loan Category	Loans in the Assessment Area		Reviewed	
	#	\$(000s)	#	\$(000s)
Small Farm	374	33,571	58	5,805
Small Business	100	6,060	47	3,516

Source: 2018 Bank Data

D&B data for 2018 provided a standard of comparison for the bank's small farm and small business lending performance. The bank's record of originating small farm loans contributed more weight to overall conclusions as agricultural lending is the bank's primary lending focus.

While both the number and dollar volume of loans are presented, examiners emphasized performance by number of loans because the number of loans is a better indicator of the number of farms and businesses served.

DESCRIPTION OF INSTITUTION

Background

Farmers and Merchants State Bank is wholly owned by Page Holding Company, Plankinton, South Dakota. The bank is affiliated by ownership with Page Bancshares, Inc., Liberty, Missouri, which owns Pony Express Bank, Braymer, Missouri. The bank received a Satisfactory rating at its previous FDIC Performance Evaluation dated September 16, 2013, based on Interagency Small Institution Examination Procedures.

Operations

Farmers and Merchants State Bank operates its main office in Plankinton. The bank also operates one full-service branch office in White Lake, South Dakota. The bank did not open or close any branches, and no merger or acquisition activities occurred since the previous evaluation.

Farmers and Merchants State Bank offers agricultural, commercial, and consumer-purpose loan products, primarily focusing on agricultural lending. The bank also participates in government-sponsored loan programs, including programs from the Farm Service Agency, South Dakota Department of Agriculture, South Dakota District 3 Rural Electric Economic Development Fund, and GROW South Dakota. These credit products and programs are consistent with the institution's size, financial capacity, and geographic location.

Farmers and Merchants State Bank provides a variety of deposit services including checking, savings, and certificates of deposit. Alternative banking services include internet banking and electronic statements.

Ability and Capacity

Farmers and Merchants State Bank's assets totaled approximately \$114 million as of June 30, 2019, and included net loans of \$95 million and total deposits of \$101 million. The loan portfolio is illustrated in the following table.

Loan Portfolio Distribution as of June 30, 2019		
Loan Category	\$(000s)	%
Construction and Land Development	364	0.4
Secured by Farmland	11,530	12.0
Secured by 1-4 Family Residential Properties	8,625	8.9
Secured by Multifamily (5 or more) Residential Properties	96	0.1
Secured by Nonfarm Nonresidential Properties	2,497	2.6
Total Real Estate Loans	23,112	24.0
Commercial and Industrial Loans	10,930	11.3
Agricultural Loans	56,082	58.2
Consumer Loans	4,834	5.0
Other Loans	1,447	1.5
Less: Unearned Income	0	0.0
Total Loans	96,405	100.0
<i>Source: Reports of Condition and Income</i>		

Examiners did not identify any financial, legal, or other impediments that affect the bank's ability to meet the credit needs of its assessment area.

DESCRIPTION OF ASSESSMENT AREA

The CRA requires each financial institution to define one or more assessment areas within which its CRA performance is evaluated. Farmers and Merchants State Bank has designated a single assessment area in a nonmetropolitan portion of southeastern South Dakota.

Economic and Demographic Data

Farmers and Merchants State Bank's assessment area includes all of Aurora County and contiguous portions of Brule County (census tract 9731) and Davison County (census tract 9626) in southeastern South Dakota. The bank's assessment area is comprised of three middle-income census tracts according to 2015 American Community Survey (ACS) data. There was no change to the income designations from the 2010 U.S. Census. The following table illustrates select demographic characteristics of the assessment area.

Demographic Information of the Assessment Area						
Demographic Characteristics	#	Low % of #	Moderate % of #	Middle % of #	Upper % of #	NA* % of #
Geographies (Census Tracts)	3	0.0	0.0	100.0	0.0	0.0
Population by Geography	8,405	0.0	0.0	100.0	0.0	0.0
Housing Units by Geography	3,957	0.0	0.0	100.0	0.0	0.0
Owner-Occupied Units by Geography	2,768	0.0	0.0	100.0	0.0	0.0
Occupied Rental Units by Geography	599	0.0	0.0	100.0	0.0	0.0
Vacant Units by Geography	590	0.0	0.0	100.0	0.0	0.0
Businesses by Geography	563	0.0	0.0	100.0	0.0	0.0
Farms by Geography	289	0.0	0.0	100.0	0.0	0.0
Family Distribution by Income Level	2,466	19.2	20.4	24.2	36.1	0.0
Household Distribution by Income Level	3,367	19.3	15.1	22.3	43.3	0.0
Median Family Income Nonmetropolitan SD		\$60,961	Median Housing Value			\$107,963
			Median Gross Rent			\$666
			Families Below Poverty Level			9.1%
<i>Source: 2015 ACS Census and 2018 D&B Data Due to rounding, totals may not equal 100.0 (*) The NA category consists of geographies that have not been assigned an income classification.</i>						

The economy of the area is heavily dependent on agriculture, and the primary crops are corn and soybeans, with some wheat and sunflowers. Bank management stated the fields that were planted yielded unusually productive harvests, but commodity prices are low. However, large portions of the area were not planted due to severe flooding. Management noted that the severe weather, trade disputes, and low commodity prices have placed significant strain on the agricultural economy. Main street businesses continue to be occupied and housing is in short supply.

Agriculture, forestry, and fishing represent the largest portion of businesses in the assessment area at 33.9 percent; followed by services at 26.9 percent; and public administration at 8.5 percent. Major employers in the assessment area include Aurora Plains Academy and National Food Corporation. Data obtained from the U.S. Bureau of Labor and Statistics revealed that as of August 2019, the unemployment rates for Aurora, Brule, and Davison counties were 2.3 percent, 2.9 percent, and 2.6 percent, respectively. Comparable figures for the state of South Dakota and the U.S. were 2.9 and 3.3 percent, respectively. Unemployment rates were generally consistent throughout the evaluation period.

Competition

The assessment area is moderately competitive for financial services. According to June 30, 2019 Reports of Condition and Income data, there were 11 financial institutions operating 20 offices within the assessment area. Of these institutions, Farmers and Merchants State Bank ranked fifth in deposit market share at 9.5 percent. The community contact stated that there is healthy competition among banks in the area.

Community Contact

As part of the evaluation process, examiners contact third parties active in the assessment area to assist in identifying the credit and community development needs. This information helps determine whether local financial institutions are responsive to these needs. It also shows what credit and community development opportunities are available.

Examiners contacted an individual from an agricultural-related organization in the assessment area. The contact stated that the primary credit need is agriculture as agriculture and agricultural-related businesses are the major drivers of the economy. The contact stated that farming conditions in the assessment area has been difficult for the last couple of years. Spring calving has been impacted by late winter storms cutting into farmers' herds. Depressed cattle prices have impacted farm income for several years, and severe weather and flooding have left many fields unplanted. For the land that did get planted, farmers have been unable to harvest the fields because the soft ground will not support the weight of the equipment. Depressed commodity prices have further strained the agricultural sector. The size of farms in the area remains relatively stable. The contact noted that most farmers in the assessment area rely on off-farm employment for health insurance and another source of income.

The contact also noted that low unemployment rates have had a significant impact on businesses in the area. Businesses are unable to hire enough employees to support expansion plans or even to support daily operations. The contact noted that there are a limited number of homes and rental units available in the area as it is unfeasible to build due to high building costs. The contact also stated that the population in the assessment area is mixed with some younger people staying in the area to replace older farming operations. Overall, the community contact stated that local banks have been responsive to the credit needs of the assessment area.

CONCLUSIONS ON PERFORMANCE CRITERIA

LENDING TEST

Farmers and Merchants State Bank demonstrated reasonable performance under the Lending Test. The bank's Loan-to-Deposit Ratio and Borrower Profile performance primarily supports this conclusion.

Loan-to-Deposit Ratio

The average net loan-to-deposit ratio is more than reasonable given the institution's size, financial condition, and assessment area credit needs. The bank's loan-to-deposit ratio, calculated from Reports of Condition and Income data, averaged 100.4 percent over the past 24 calendar quarters from September 30, 2013, through June 30, 2019. The ratio ranged from a low of 91.3 percent as of December 31, 2017, to a high of 112.6 percent as of September 30, 2014. The ratio remained generally stable during the evaluation period. As shown in the following table, Farmers and Merchants State Bank maintained a ratio higher than those of comparable institutions. Examiners selected comparable institutions based on their asset size, geographic location, and lending focus.

Loan-to-Deposit Ratio Comparison		
Bank	Total Assets as of 6/30/2019 \$(000s)	Average Net Loan-to-Deposit Ratio (%)
Farmers and Merchants State Bank Plankinton, South Dakota	113,912	100.4
Security State Bank Alexandria, South Dakota	78,961	70.7
Farmers State Bank Parkston, South Dakota	214,466	58.4

Assessment Area Concentration

As reflected in the following table, Farmers and Merchants State Bank originated a majority of small farm and small business loans, by number and dollar volume, within its assessment area.

Lending Inside and Outside of the Assessment Area										
Loan Category	Number of Loans				Total #	Dollar Amount of Loans \$(000s)				Total \$(000s)
	Inside		Outside			Inside		Outside		
	#	%	#	%		\$	%	\$	%	
Small Farm	374	80.8	89	19.2	463	33,571	72.9	12,454	27.1	46,025
Small Business	100	76.9	30	23.1	130	6,060	79.8	1,537	20.2	7,597

Geographic Distribution

Farmers and Merchants State Bank's assessment area is comprised solely of middle-income census tracts; therefore, a geographic distribution analysis was not conducted as it would not result in meaningful conclusions.

Borrower Profile

The distribution of borrowers reflects reasonable penetration among farms and businesses of different sizes. Although the bank's small business performance is excellent, the bank's reasonable small farm performance is the driver for this conclusion. Examiners focused on the percentage, by number, of loans to farms and businesses with gross annual revenues of \$1 million or less.

Small Farm Loans

The distribution of borrowers reflects reasonable penetration among farms of different revenue sizes in the assessment area. As shown in the following table, the bank's performance of lending to farms with gross annual revenues of \$1 million or less is comparable to demographic data in the same revenue category.

Distribution of Small Farm Loans by Gross Annual Revenue Category					
Gross Revenue Level	% of Farms	#	%	\$(000s)	%
≤\$1,000,000	97.6	55	94.8	5,445	93.8
>\$1,000,000	1.7	3	5.2	360	6.2
Revenue Not Available	0.7	0	0.0	0	0.0
Total	100.0	58	100.0	5,805	100.0
<i>Source: Bank Data; 2018 D&B Data Due to rounding, totals may not equal 100.0</i>					

Small Business Loans

The distribution of borrowers reflects excellent penetration among businesses of different sizes. The following table shows that 89.4 percent of small business loans were originated to businesses with gross annual revenues of \$1 million or less. This performance exceeds the demographic data in the same revenue category.

Distribution of Small Business Loans by Gross Annual Revenue Category					
Gross Revenue Level	% of Businesses	#	%	\$(000s)	%
≤\$1,000,000	75.3	42	89.4	2,099	59.7
>\$1,000,000	4.1	5	10.6	1,417	40.3
Revenue Not Available	20.6	0	0.0	0	0.0
Total	100.0	47	100.0	3,516	100.0
<i>Source: Bank Data; 2018 D&B Data Due to rounding, totals may not equal 100.0</i>					

Response to Complaints

The bank did not receive any CRA-related complaints since the previous evaluation. Therefore, this criterion did not affect the rating.

DISCRIMINATORY OR OTHER ILLEGAL CREDIT PRACTICES REVIEW

Examiners did not identify any evidence of discriminatory or other illegal credit practices. Therefore, this consideration did not affect the institution's CRA rating.

GLOSSARY

Aggregate Lending: The number of loans originated and purchased by all reporting lenders in specified income categories as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

Area Median Income: The median family income for the MSA, if a person or geography is located in an MSA; or the statewide nonmetropolitan median family income, if a person or geography is located outside an MSA.

Assessment Area: A geographic area delineated by the bank under the requirements of the Community Reinvestment Act.

Census Tract: A small, relatively permanent statistical subdivision of a county or equivalent entity. The primary purpose of census tracts is to provide a stable set of geographic units for the presentation of statistical data. Census tracts generally have a population size between 1,200 and 8,000 people, with an optimum size of 4,000 people. Census tract boundaries generally follow visible and identifiable features, but they may follow nonvisible legal boundaries in some instances. State and county boundaries always are census tract boundaries.

Combined Statistical Area (CSA): A combination of several adjacent metropolitan statistical areas or micropolitan statistical areas or a mix of the two, which are linked by economic ties.

Consumer Loan(s): A loan(s) to one or more individuals for household, family, or other personal expenditures. A consumer loan does not include a home mortgage, small business, or small farm loan. This definition includes the following categories: motor vehicle loans, credit card loans, home equity loans, other secured consumer loans, and other unsecured consumer loans.

Core Based Statistical Area (CBSA): The county or counties or equivalent entities associated with at least one core (urbanized area or urban cluster) of at least 10,000 population, plus adjacent counties having a high degree of social and economic integration with the core as measured through commuting ties with the counties associated with the core. Metropolitan and Micropolitan Statistical Areas are the two categories of CBSAs.

Family: Includes a householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption. The number of family households always equals the number of families; however, a family household may also include non-relatives living with the family. Families are classified by type as either a married-couple family or other family. Other family is further classified into “male householder” (a family with a male householder and no wife present) or “female householder” (a family with a female householder and no husband present).

Family Income: Includes the income of all members of a family that are age 15 and older.

FFIEC-Estimated Income Data: The Federal Financial Institutions Examination Council (FFIEC) issues annual estimates which update median family income from the metropolitan and nonmetropolitan areas. The FFIEC uses American Community Survey data and factors in information from other sources to arrive at an annual estimate that more closely reflects current economic conditions.

Full-Scope Review: A full-scope review is accomplished when examiners complete all applicable interagency examination procedures for an assessment area. Performance under applicable tests is analyzed considering performance context, quantitative factors (for example, geographic distribution, borrower profile, and total number and dollar amount of investments), and qualitative factors (for example, innovativeness, complexity, and responsiveness).

Geography: A census tract delineated by the United States Bureau of the Census in the most recent decennial census.

Home Mortgage Disclosure Act (HMDA): The statute that requires certain mortgage lenders that do business or have banking offices in a metropolitan statistical area to file annual summary reports of their mortgage lending activity. The reports include such data as the race, gender, and the income of applicants; the amount of loan requested; and the disposition of the application (approved, denied, and withdrawn).

Home Mortgage Disclosure Loan Application Register (HMDA LAR): The HMDA LARs record all applications received for residential purchase, refinance, home improvement, and temporary-to-permanent construction loans.

Home Mortgage Loans: Includes home purchase and home improvement loans as defined in the HMDA regulation. This definition also includes multi-family (five or more families) dwelling loans, loans to purchase manufactured homes, and refinancings of home improvement and home purchase loans.

Household: Includes all persons occupying a housing unit. Persons not living in households are classified as living in group quarters. In 100 percent tabulations, the count of households always equals the count of occupied housing units.

Household Income: Includes the income of the householder and all other persons that are age 15 and older in the household, whether related to the householder or not. Because many households are only one person, median household income is usually less than median family income.

Housing Unit: Includes a house, an apartment, a mobile home, a group of rooms, or a single room that is occupied as separate living quarters.

Limited-Scope Review: A limited scope review is accomplished when examiners do not complete all applicable interagency examination procedures for an assessment area. Performance under applicable tests is often analyzed using only quantitative factors (for example, geographic distribution, borrower profile, total number and dollar amount of investments, and branch distribution).

Low-Income: Individual income that is less than 50 percent of the area median income, or a median family income that is less than 50 percent in the case of a geography.

Market Share: The number of loans originated and purchased by the institution as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

Median Income: The median income divides the income distribution into two equal parts, one having incomes above the median and other having incomes below the median.

Metropolitan Division (MD): A county or group of counties within a CBSA that contain(s) an urbanized area with a population of at least 2.5 million. A MD is one or more main/secondary counties representing an employment center or centers, plus adjacent counties associated with the main/secondary county or counties through commuting ties.

Metropolitan Statistical Area (MSA): CBSA associated with at least one urbanized area having a population of at least 50,000. The MSA comprises the central county or counties or equivalent entities containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.

Micropolitan Statistical Area: CBSA associated with at least one urbanized area having a population of at least 10,000, but less than 50,000.

Middle-Income: Individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 and less than 120 percent in the case of a geography.

Moderate-Income: Individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 and less than 80 percent in the case of a geography.

Multi-family: Refers to a residential structure that contains five or more units.

Nonmetropolitan Area: All areas outside of metropolitan areas. The definition of nonmetropolitan area is not consistent with the definition of rural areas. Urban and rural classifications cut across the other hierarchies. For example, there is generally urban and rural territory within metropolitan and nonmetropolitan areas.

Owner-Occupied Units: Includes units occupied by the owner or co-owner, even if the unit has not been fully paid for or is mortgaged.

Rated Area: A rated area is a state or multistate metropolitan area. For an institution with domestic branches in only one state, the institution's CRA rating would be the state rating. If an institution maintains domestic branches in more than one state, the institution will receive a rating for each state in which those branches are located. If an institution maintains domestic

branches in two or more states within a multistate metropolitan area, the institution will receive a rating for the multistate metropolitan area.

Rural Area: Territories, populations, and housing units that are not classified as urban.

Small Business Loan: A loan included in “loans to small businesses” as defined in the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$1 million or less and are either secured by nonfarm nonresidential properties or are classified as commercial and industrial loans.

Small Farm Loan: A loan included in “loans to small farms” as defined in the instructions for preparation of the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$500,000 or less and are either secured by farmland, including farm residential and other improvements, or are classified as loans to finance agricultural production and other loans to farmers.

Upper-Income: Individual income that is 120 percent or more of the area median income, or a median family income that is 120 percent or more in the case of a geography.

Urban Area: All territories, populations, and housing units in urbanized areas and in places of 2,500 or more persons outside urbanized areas. More specifically, “urban” consists of territory, persons, and housing units in places of 2,500 or more persons incorporated as cities, villages, boroughs (except in Alaska and New York), and towns (except in the New England states, New York, and Wisconsin).

“Urban” excludes the rural portions of “extended cities”; census designated place of 2,500 or more persons; and other territory, incorporated or unincorporated, including in urbanized areas.
